PRACTICALLY every selffilling fountain pencarries its ink inatiny reservoir or rubber sac. The glass on the left shows the small capacity of a rubber sac pen.

The glass on the right shows the ink held by a self-filling Dunn-Pen of the same size. This vast difference is due to the fact that the Dunn-Pen has no rubber sac.

The Little Red Pump-Handle fills and cleans the Dunn-Pen. Only four major parts-no seams to leak, no valves to break - nothing to get out of order. Positive ink flow, with never a stop, a sputterorstutter.

The Dunn-Pen comes in 27 styles with hard rubber and transparent barrels, as illustrated, a pen to suit every hand and pocketbook -\$2.75 up.

As the hour of the meeting approaches there is less talk of taking action in answer to the resolution passed at the last reunion of Confederate veterate veterans at Richmond, Va., charging President Lincoln with being personally responsible for the Civil War.

Commander Pilcher has said that it is his opinion that the matter will be ignored. Other national officers have said, however, that the Confederate veterans' charge will be answered.

President Harding's father, Dr. George T. Harding, of Marion, Ohio, was in the marching column to-day, inconspicuous among his comrades from the Buckeye State. Hanford MacNider, national commander of the American Legion, occupied a seat in the automobile of General Pilcher.

Abram Yeoman, a member of the Paterson, N.
